New Story Details and *ConnectTank* Features Emerge!

Meet the Barons and Learn About the Powerful Tanks That Roam New Pangea!

Burlingame, CA. – April 21, 2021 – Natsume Inc., a worldwide developer and publisher of family-oriented video games, and YummyYummyTummy, the most recent developer to join the Natsume Indie Program, revealed more details about the upcoming 2D action-adventure game, *ConnectTank*, launching on Nintendo Switch, PlayStation 4, Xbox One, and PC this summer.

Meet the Barons!

A hyper-capitalist straight out of the gilded age, Finneas Fat Cat XV wants to spread his good name far and wide! Whether that's by building more factories for his "beloved" employees to work in or statues made in his image, Finneas will have lots of missions for you to help spread his glorious name across New Pangea!

An eccentric patron of the arts, Lord Lewis Longneck of Lewingford wants to build a museum that will put the Lourve to shame! For him, money is a means to culture, not just a means to an end! However, that passion for the arts still somehow involves building giant statues of himself...

Help Emperor Pontius Penguin and his Tundra Collective seize the means of production! For the glory of the Tundra! He'll also pay you in cash, too, not just glory, so don't worry!

A powerful shipping company is only as strong as its tanks!

Equipped with Excalibur and an attack boosting Dragon Fang, Sir Gawain is ready to take down any dragons that come his way! Unfortunately, there are no dragons in New Pangea, so you'll have to use his powers to take down giant tanks instead! Watch out! His metal armor is weak against drill-type ammo!

Equipped with chilly Frozen Sherbet and Tundra Turbine, Sprinkles Please will serve tanks their just desserts by freezing them and their ammo! If you get caught in her cold snap, blocks of ice

will appear inside your tank. You can hit these ice blocks to free your tank from being a frosty treat.

Equipped with a time slowing hourglass and a special conveyor belt that clones the ammo you craft, Checkmate will always be five steps ahead of other tanks! Speaking of steps, though, Checkmate is weak against footwear ammo like Red Slippers and Snow Boots!

ConnecTank is a 2D action-adventure game developed by YummyYummyTummy, Inc for 1-4 players that combines exciting tank battles with puzzle solving. In *ConnecTank*, players deliver packages for one of three Barons seeking to become the top Tycoon of New Pangea! Through innovative tank battle mechanics utilizing both skill and teamwork, players fight rival tanks to improve their existing tank or, once enough parts are collected, use new ones! Each mammoth sized tank comes with its own unique skills, strengths, and weaknesses, so choose wisely! With hundreds of missions, ever-changing powerups, and dozens of tanks to battle the possibilities are endless!

More details about *ConnecTank* for Switch, PlayStation 4, Xbox One, and PC will be revealed in the coming months! Learn more about YummyYummyTummy at <https://www.yummyyummytummy.com/>

The Natsume Indie Program partners Natsume with independent developers around the world that are creating authentic experiences that are *Serious Fun* for gamers of all ages. The first title under the program, [Cosmic Defenders](#), developed by one-man team Fiery Squirrel, released on Nintendo Switch last year. Recently, the program partnered with Lucid Dreams Studio, a Montreal-based studio, in releasing their first title, [Legends of Eternal](#).
