

Harvest Moon: Home Sweet Home Adds Controller Support in New Update

Today's Patch Also Includes Cloud Save

Burlingame, CA. – December 17, 2024 – [Natsume Inc.](#), a worldwide developer and publisher of family-oriented video games, today released a patch update for ***Harvest Moon: Home Sweet Home*** that adds controller support and cloud save to the most recent title in the longstanding *Harvest Moon* series.

Harvest Moon: Home Sweet Home now features controller support. Players will be able to choose their play style as they farm, fish, tend to animals, and more. Today's patch also introduces cloud save, which allows players to resume gameplay across devices; play on a tablet, then bring your farm on the go on a mobile device!

Harvest Moon: Home Sweet Home can be found on the Apple Store [HERE](#) and on Google Play [HERE](#).

In *Harvest Moon: Home Sweet Home* it's time to head back to your roots and leave the city life for your childhood village of Alba, where the freshest fish and tastiest veggies are grown and caught by the local farmers and anglers.

However, with its population getting older and younger villagers leaving for the big city, Alba Village has seen better days, so can you help turn it from a village on the decline to one of prosperity? With its beautiful surroundings, Alba definitely has the potential, but can you bring tourists and even new residents to this sprawling green village?

Harvest Moon: Home Sweet Home is the biggest Harvest Moon game ever on mobile! In addition, woo a variety of different bachelors and bachelorettes, and marry whomever your heart desires! Reunite with your childhood friend and other familiar faces to help put Alba on the map!

Harvest crops, take care of animals, fish, mine, and more. Collect and gather Happiness to grow the village and get new residents, while competing and taking part in various contests and festivals!
